Exploring North Carolina In Their Own Words: Personal Accounts and Narratives

Many NCpedia biographies include links to autobiographies, memoirs, and personal narratives written by the biographical subject. And others contain access to interviews and oral histories. These types of subjective sources can often provide additional context for the experiences and lived life of the writer or speaker. They can share the perspectives, thoughts, and feelings of individuals who lived in different historical periods and experienced the world in a different way. They can often help us better understand other cultures, historical events, and places. They are the stories people tell about their lives.

This page gathers NCpedia biographies that include personal accounts, journals, diaries, memoirs, oral histories, and other personal stories.
