M.</b> 30—95</p>	<p>remain has attended to your name. The de- feelings of the South, and I therefore send you this for the columns of the Evening Star, having no doubt but that it will meet your approbation. The name of Jefferson has been of late years the subject of so much vituperation, that many reasonable people who never examine for themselves conclude from the number of his assailants that some great sin in his life has been recently brought to light. The last N. Y. Mirror contains an extract from the Memo- rials of North Carolina, by Mr. Jones, of that State; and we there see that that gen- tleman continues his abuse of Mr. Jeff- erson, under the guise of defending his own State. He hates Mr. Jefferson for his principles, and hates Virginia because she is proud of her native son of freedom. According to him, Mr. Jefferson states the opinions and much of the language of the Declaration of Independence from the Mecklenburg Declaration. According to him Sir Walter Raleigh was not the Lord of the sacred shore at Jamestown, and ac- cording to him the name of Raleigh is con- necte with no other territory of the United States but that of North Carolina. All these are new and startling points, and contrary to by every historian of any note; and thus historical Revolution I cannot expect Vir- ginia to sit quietly and witness the degra- dation and insult of her proud son. No- tings.</p> <p>Mr. Jones sneers too at Mr. Randolph's title of "Roanoke," and says he portrayed it from the annals of North Carolina. But how this is, he does not tell us. The river Roanoke is in the State of Virginia, and sweeps over a much wider extent of that State than it does of North Carolina. The estate of Mr. Randolph was directly upon its banks, and there he was born, and from there he had as much right to take a name, as Mr. Jones had to take the name of Shocco from the spot of his birth. The spirit with which Mr. Jones assails Vir- ginia, and every thing connected with her his- tory, convinces me he must have some la- tent, concealed reason for his bitter hatred; and so long as he does not misrepresent the facts of our history, he may justify him- self in the eyes of many; but I could not permit his aim to Sir Walter Raleigh as the founder of North Carolina to pass un- contradicted nor let even this occasion pass without saying a word of defence for the lamented Jefferson and Randolph.</p> <p><b>A VERMILION.</b> When I first saw these two articles, it did not appear to me as at all necessary that I should reply to any thing they con- tained. In the first place, they were anon- ymous communications, and I did not con- sider the editors of either paper in any wise responsible for their contents. Besides, too, I had supposed that if there was any point of American history so tried and altogether beyond controversy, it was the fact that the coast of North Carolina had been colonized under the auspices of Sir Walter Raleigh, and that the Roanoke and the contiguous islands of that State were known under the name of Virginia, for more than twen- ty years, before the settlement of James- town. But it seems that I am not to be Wash-</p>

Usage Statement:

## Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created

by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
