Map of the United States of Mexico (c. 1847)

This is a map of Mexico from 1847 entitled *Mapa de los Estados Unidos de Méjico* and was published by J. Disturnell at 102 Broadway, New York.

Represented on this map are the cartographic boundaries of and 1847 spellings of Méjico, Florida, Alabama, Georgia, Misisipi, Louisiana, Arkansas, Missouri, Iowa, and Tejas. The map includes a table of distances, a table of statistics, and routes from Vera Cruz, Alvarado, and Méjico.

Usage Statement:

Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
