

Assiniboine hunting buffalo

Assiniboine Hunting Buffalo

Paul Kane's painting (circa 1851-1856) depicts two Plains Native Americans on horseback hunting a buffalo. The introduction of horses by Spanish settlers changed the way Plains Indians lived. For example hunting improved since Plains Native Americans were able to overtake buffalo by speed.

Usage Statement:

Public Domain

Public Domain is a copyright term that is often used when talking about copyright for creative works. Under U.S. copyright law, individual items that are in the public domain are items that are no longer protected by copyright law. This means that you do not need to request permission to re-use, re-publish or even change a copy of the item. Items enter the public domain under U.S. copyright law for a number of reasons: the original copyright may have expired; the item was created by the U.S. Federal Government or other governmental entity that views the things it creates as in the public domain; the work was never protected by copyright for some other reason related to how it was produced (for example, it was a speech that wasn't written down or recorded); or the work doesn't have enough originality to make it eligible for copyright protection.
