

creationism ^[1]

Type of Speech:

noun ^[2]

Definition:

Theory of the origin of the earth and species based on a literal interpretation of the biblical story presented in Genesis in which the world was created in six days some 6,000 years ago.

Additional Information:

Creationists challenge the theory of evolution and its place in education. Advocates argue that creationism should at least be provided as an alternative to evolution in science education.
