

graphic organizer ^[1]

Type of Speech:

noun ^[2]

Definition:

Visual illustrations to help students establish and learn connections between concepts. Useful at any stage of learning, graphic organizers can be used to organize new material or to review information already discussed. This worksheet ^[3] provides a three-column chart for students to keep track of their thoughts as they read an article or primary source. The first column is for facts, the second for questions, and the third for their own responses to the reading or to those facts and questions.
