

Quetzalcoatl ^[1]

Type of Speech:

noun ^[2]

Definition:

The plumed serpent god of the Toltecs and Aztecs, called Kukulcán by the Maya. Some legends claimed that Quetzalcoatl was a god driven out by Huitzilopochtli and other gods, but that he would return and usher in a new age and faith. Moctezuma gave much credence to these legends, and possibly saw the Spaniards as the fulfillment of the prophecy.
