

Spider Map ^[1]

Type of Speech:

noun ^[2]

Definition:

A graphic organizer used to describe the attributes and functions of a central idea or theme. Each central theme has four or more branches to organize details, resembling a spider.

Additional Information:

Spider maps can be used to help a student organize thoughts and learning about a topic, to identify areas in need of further investigation, or to prepare for writing assignment.

A spider map template ^[3] can be found on the Eduplace website.
