

Lytch, James ^[1]

Lytch, James

by Walter Richard Bullock, Jr., 1991

24 July 1814–30 Oct. 1890

Patent drawing for James Lytch's Cider-Mill, US Patent Publication No. US109527, November 22, 1870. Presented on Google Patents.

^[2]James Lytch, inventor, was the son of Archibald and Flora McEachin Lytch. His mother was the daughter of John McEachin (b. 1740) and his wife Mary Currie (b. 1750). John McEachin emigrated from Scotland at a young age and settled in the Highland Scot community on the Upper Cape Fear River ^[3], near present-day Fayetteville.

Lytch was raised and educated in the tradition of his Scottish Presbyterian family, but his mechanical ingenuity appears to have been a natural gift. His first patent was issued in 1870 for a cotton planter, which he called the Eclipse Lytch Cotton Planter. It was his most successful invention and was widely used throughout the South; some planters were sold as far away as California. The Cape Fear Agricultural Association awarded Lytch a medal for his planter at its 1872 fair in Wilmington. Other inventions for which Lytch received patents were a cotton scraper (1870), a cider mill (1870), and an improved fertilizer distributor (1873).

J. LYTCH.
Fertilizer-Distributors.

No. 144,465.

Patented Nov. 11, 1873.

Witnesses:

Cres. Nida
Chiquier

Patent drawing for James Lytch's Improvement in Fertilizer-Distributors, US Patent Publication No. US144465 A, November 11, 1873. Presented on Google Patents.

[4]The Lytch planter was manufactured in shops Lytch built near his home at X-Way in Richmond (now Scotland) County. He also built and operated a gristmill at the site. As of 1980 this mill was still in operation, producing cornmeal and whole wheat flour under the X-Way brand. The Lytch home and grounds are included on the National Register of Historic Places. In 1957

the state of North Carolina erected a historical marker near the Lytch home^[5] on State Road 1108 to honor James Lytch and his accomplishments.

On 16 Mar. 1837 Lytch married Sarah James Shaw (9 Sept. 1813–20 Apr. 1878), and they had eight children: John Archibald, Hector McNeill, Mary Jane, Flora Ann, James Martine, Milton, Daniel Calder, and Sarah Shaw. Lytch left his shops to Daniel, the most mechanically inclined of his children, who continued to produce planters after his father's death.

Lytch was a faithful member of Gum Swamp Presbyterian Church (now Laurel Hill). In his later years, he would travel on Saturday from his home to that of his son Milton, who lived near Laurel Hill, and spend the night, attending church the next day. He was buried in the Lytch family cemetery near his home.
