

## Modifying by vocabulary

### **Example: Primary-level tiered learning center about animals**

Description: Students will sort pictures of animals into the following categories:

- **Tier 1:** Students will sort the cards with pictures of animals by the kind of animal. In other words, lions will be in one stack, tigers in one stack, and so on.
- **Tier 2:** Students will sort the cards with pictures of animals by the animals' habitats. Categories may include jungle animals, farm animals, pets, ocean animals, etc.
- **Tier 3:** Students will sort the cards with pictures of animals by the animals' eating habits: carnivores, herbivores, or omnivores.
